Name: _____

Property Address: _____

City: _____ State: _____ Zip Code: _____

Phone Number: _____ Is phone # provided Cell or Home

Email Address: _____

Water Account No. (if known): _____

Do you prefer to be contacted by Phone or Email

OPTIONS

- Yes** – I want the portion of my lead service line that I own replaced and I understand this requires a financial contribution of \$1,000 which can be paid in full prior to the work being performed or in installments over a twelve (12) month period. If you select “Yes,” someone from Trenton Water Works or their contractor will contact you to schedule the work.
- Defer** – I am interested in having the portion of my lead service line that I own replaced, however, I’d like to defer the replacement of my lead service line to another time in the future. Please contact me again at a later date.
- No** – I decline the City’s offer to replace the portion of my lead service line that I own. I understand the health risks associated with having a lead service line. I do not hold the City of Trenton accountable for any future health related concerns that may result from having a lead service line. I understand that I can hire an independent contractor to replace my portion of the service line on my own in the future.
- Other**, please write-in here: _____

- If you answered “Defer” or “No” above, would you like to participate in the City’s lead sampling program? Participation requires you to collect up to two (2) water samples each year with direction from Trenton Water Works. Each sample result will be provided to you by the City once the sample is analyzed. Up to 150 volunteers that meet the required sample site selection criteria will be randomly selected to participate in the lead sampling program. If you check “yes” to be a part of this program, it is not a guarantee that you will be selected.
