**EXCEPTIONS
(IF NONE, PLEASE NOTE)**

1) Motor + Drive - We are quoting a Dodge Quantis ILH 68 reducer, C-Faced to a Baldor VECP 3581T motor. The motor is Severe Duty 1HP 143TC frame. The reducer has a 24 RPM output + a 2.68 Service Factor. We feel this is a superior drive package to the existing Falk drive. Also the existing Falk EZ reducer is obsolete.

The quoted reducer has a different mounting bolt foot print and will require a slight modification of the existing base. See included drawing for dimensions.
