2. Redevelopment Objectives

The goal of the Chancery Place Redevelopment Plan is to permit construction of new office/retail space which will provide continuous building frontage along an important commercial section of West State Street in downtown.

B. LAND USE PLAN

1. Land Use Map

The attached Land Use Map, dated September 1983 and revised June 1985, indicates the proposed use (commercial) in the Project Area.

2. Land Use Provisions and Building Requirements

a. Permitted Land Uses

Land uses as indicated on the Land Use Map dated September 1983, except as modified herein, shall be as follows:
1. Business A

All uses permitted in Business A districts will be permitted in the Project Area, including commercial office space and surface or structural parking.

b. Building Requirements

1. Regulations, controls and restrictions regarding building area, floor area, height, lot width, yard setbacks and parking, if not controlled by this Redevelopment Plan, shall be generally determined by the City’s Zoning Ordinance, but the Department of Housing and Economic Development shall make recommendations to allow for innovations in site planning and design as seen appropriate to the plan.

2. The following land use controls shall apply to the Project Area as described on the attached Land Use Map:

   a. Any on-site surface parking and loading shall be provided in the rear of buildings.

   b. If the construction of buildings on West State Street is phased so that part of the street frontage is not built upon, the developer may use the area to the side of the building for surface parking provided that the developer obtains financing necessary for an Urban Development Action Grant within two years of property acquisition. After said two-year period, the City may prohibit parking to the side of the building provided that the developer has available the same number of parking spaces in the Commons parking lot.

2. Redeveloper’s Obligations
