# Implementation Strategy

Downtown Capital District Master Plan  
Trenton, New Jersey

# Implementation Strategy

## Making the Master Plan a Reality

Plans are typically judged not only by their quality but by the extent to which they are implemented. The City of Trenton undertook this plan with the intention that it would be used by staff and elected or appointed officials on a regular basis to guide decisions regarding the redevelopment of Downtown. Some plans are approved but are rarely referenced, or gradually lose relevance because they are not updated. To keep this Downtown Master Plan relevant, its role in City decision-making needs to be affirmed.

As the Downtown planning process transitions from the visioning and concept stage into active implementation, the City will benefit from the establishment of a steering committee or task force charged with driving the Plan forward. This group should comprise a cross-section of the Downtown community and “Friends of Trenton,” perhaps representing diverse stakeholder interests but united by the common desire to achieve the vision for Downtown Trenton defined in this Plan. A subset of the existing stakeholder committee from this planning process should be invited to continue their participation as a way of providing continuity throughout the planning process. While many of the detailed projects and activities may be undertaken by staff from various City, County or State agencies, the steering committee can provide valuable guidance and influence regarding prioritization of activity and allocation of resources. The group should also be leveraged to maintain enthusiasm for the Plan among the business community, residents and other constituent groups, who may be asked to lend support for particular projects through referenda or public debate.

Implementation plans for each element of the Master Plan are presented below by district. These sections contain a consolidated matrix of major projects in each district, and a brief description of target implementation timeframe and departments, agencies or interest groups that should be involved. Potential funding sources are suggested, including public, private, and non-profit tools, depending upon

the nature of the project. A detailed action plan for all projects identified in the district is provided at the end of each section, with a proposed timeframe for implementation (subject to availability of funding, political support and market interest).

A more detailed discussion of funding tools is included at the end of the section, in addition to a matrix cross-referencing all participating parties to a master list of projects, in order to ensure support and coordination among the various public agencies.

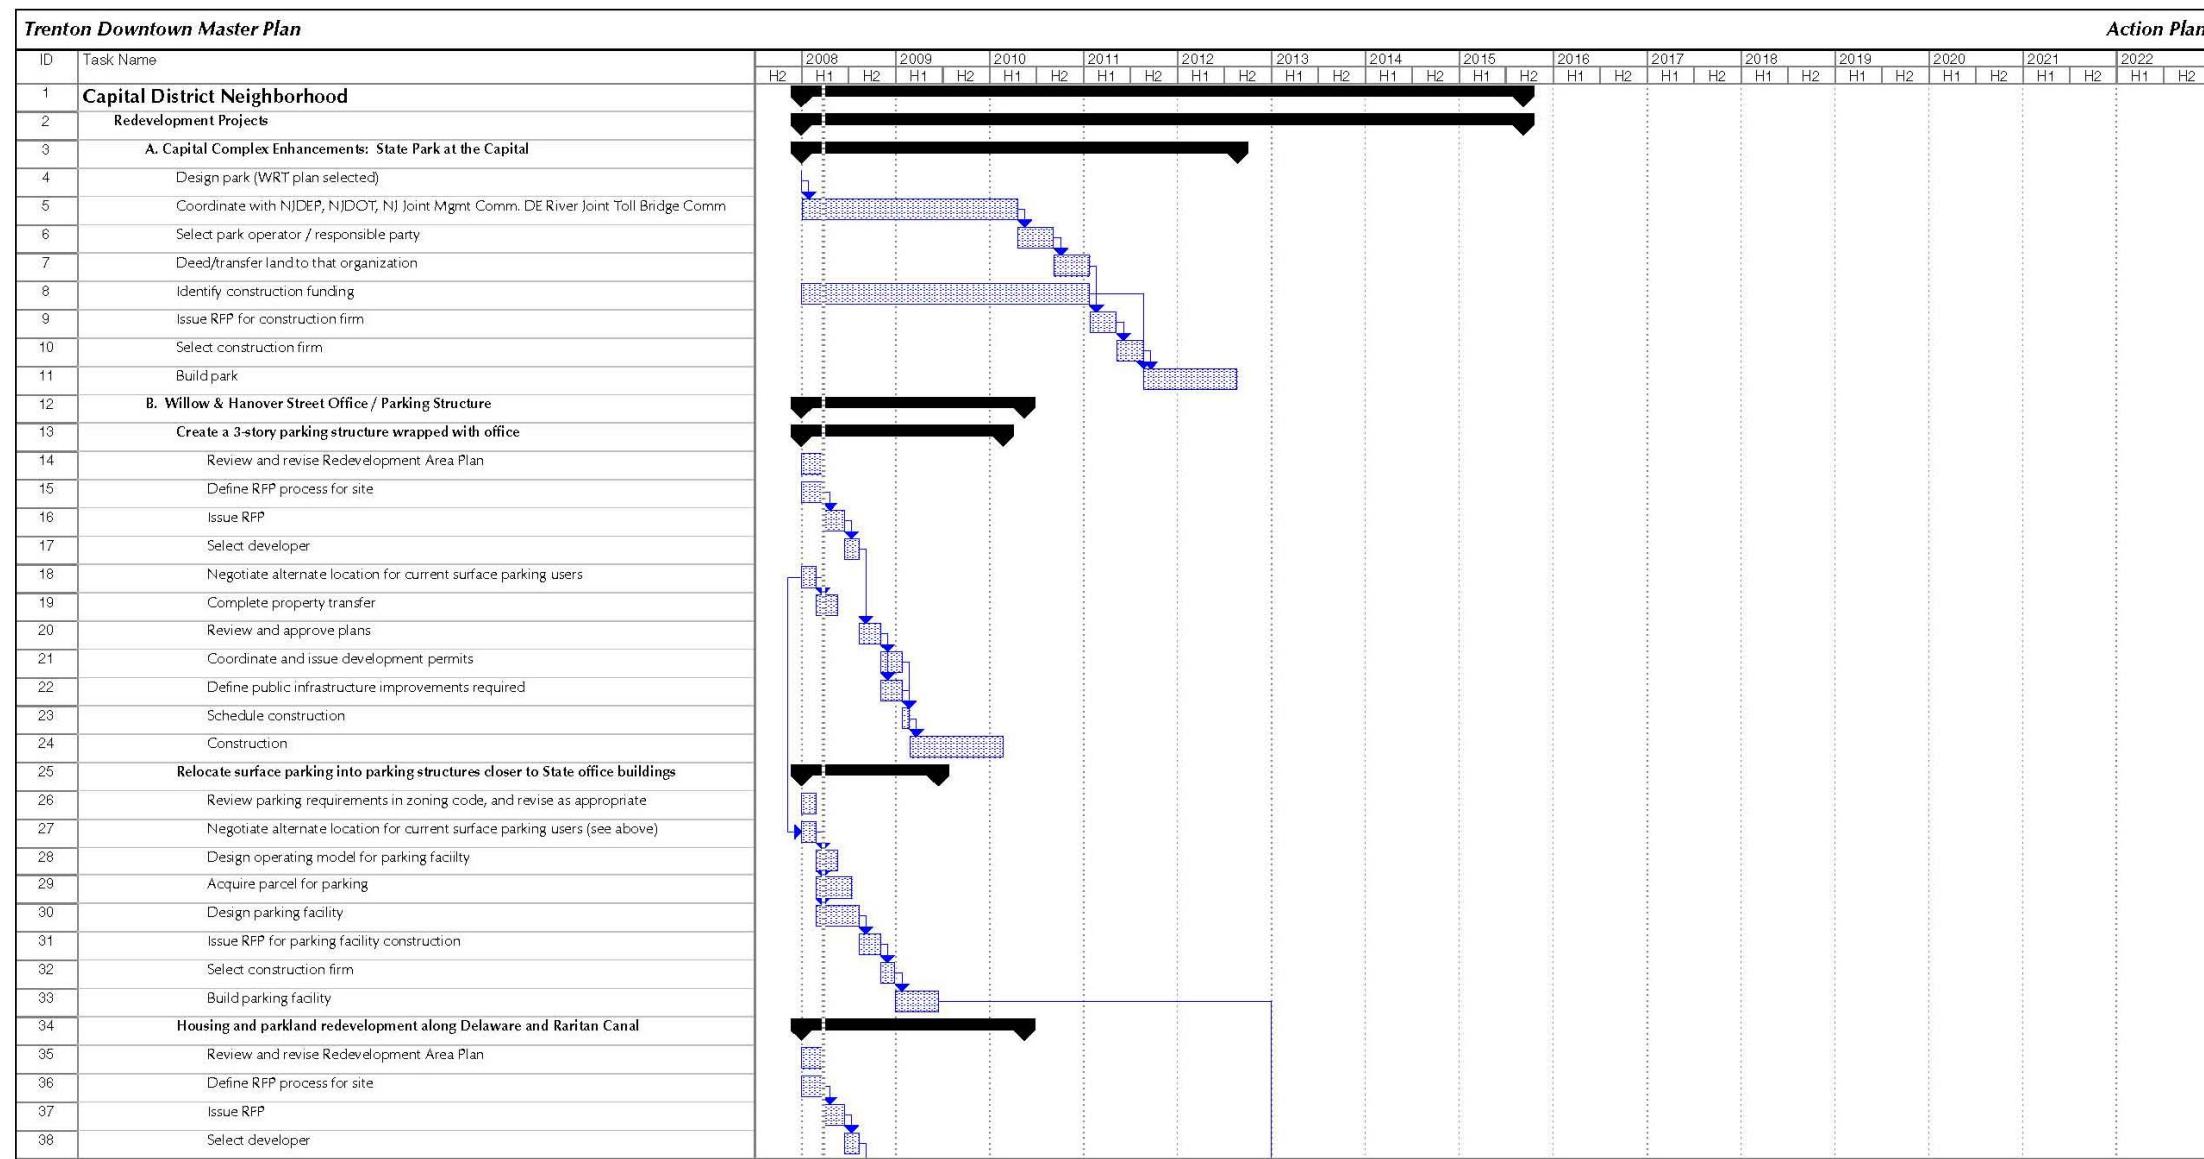

# Implementation Strategies by Neighborhood

## Capital District Neighborhood

Capital District Neighborhood projects identified in the Master Plan include a mix of public spaces, residential, commercial and mixed-use redevelopments, relocation of surface parking, and transportation improvements. A number of public and private investments are positioned to kick off in the short term on “shovel ready” parcels; other redevelopment efforts, including some larger scale residential, commercial and mixed-use projects are anticipated to kick off in the medium term after pre-development preparatory activities, site control and funding commitments are completed.

## Downtown Transit Village

This district's identity is built around its central transit assets, the train station and light rail system. Investments in the train station are nearing completion, and should serve as a spur to surrounding commercial and residential development in the medium term. The projects identified in the Master Plan round out the mix of land uses in the district, and include initiatives to improve internal circulation and park assets.

## Riverfront District

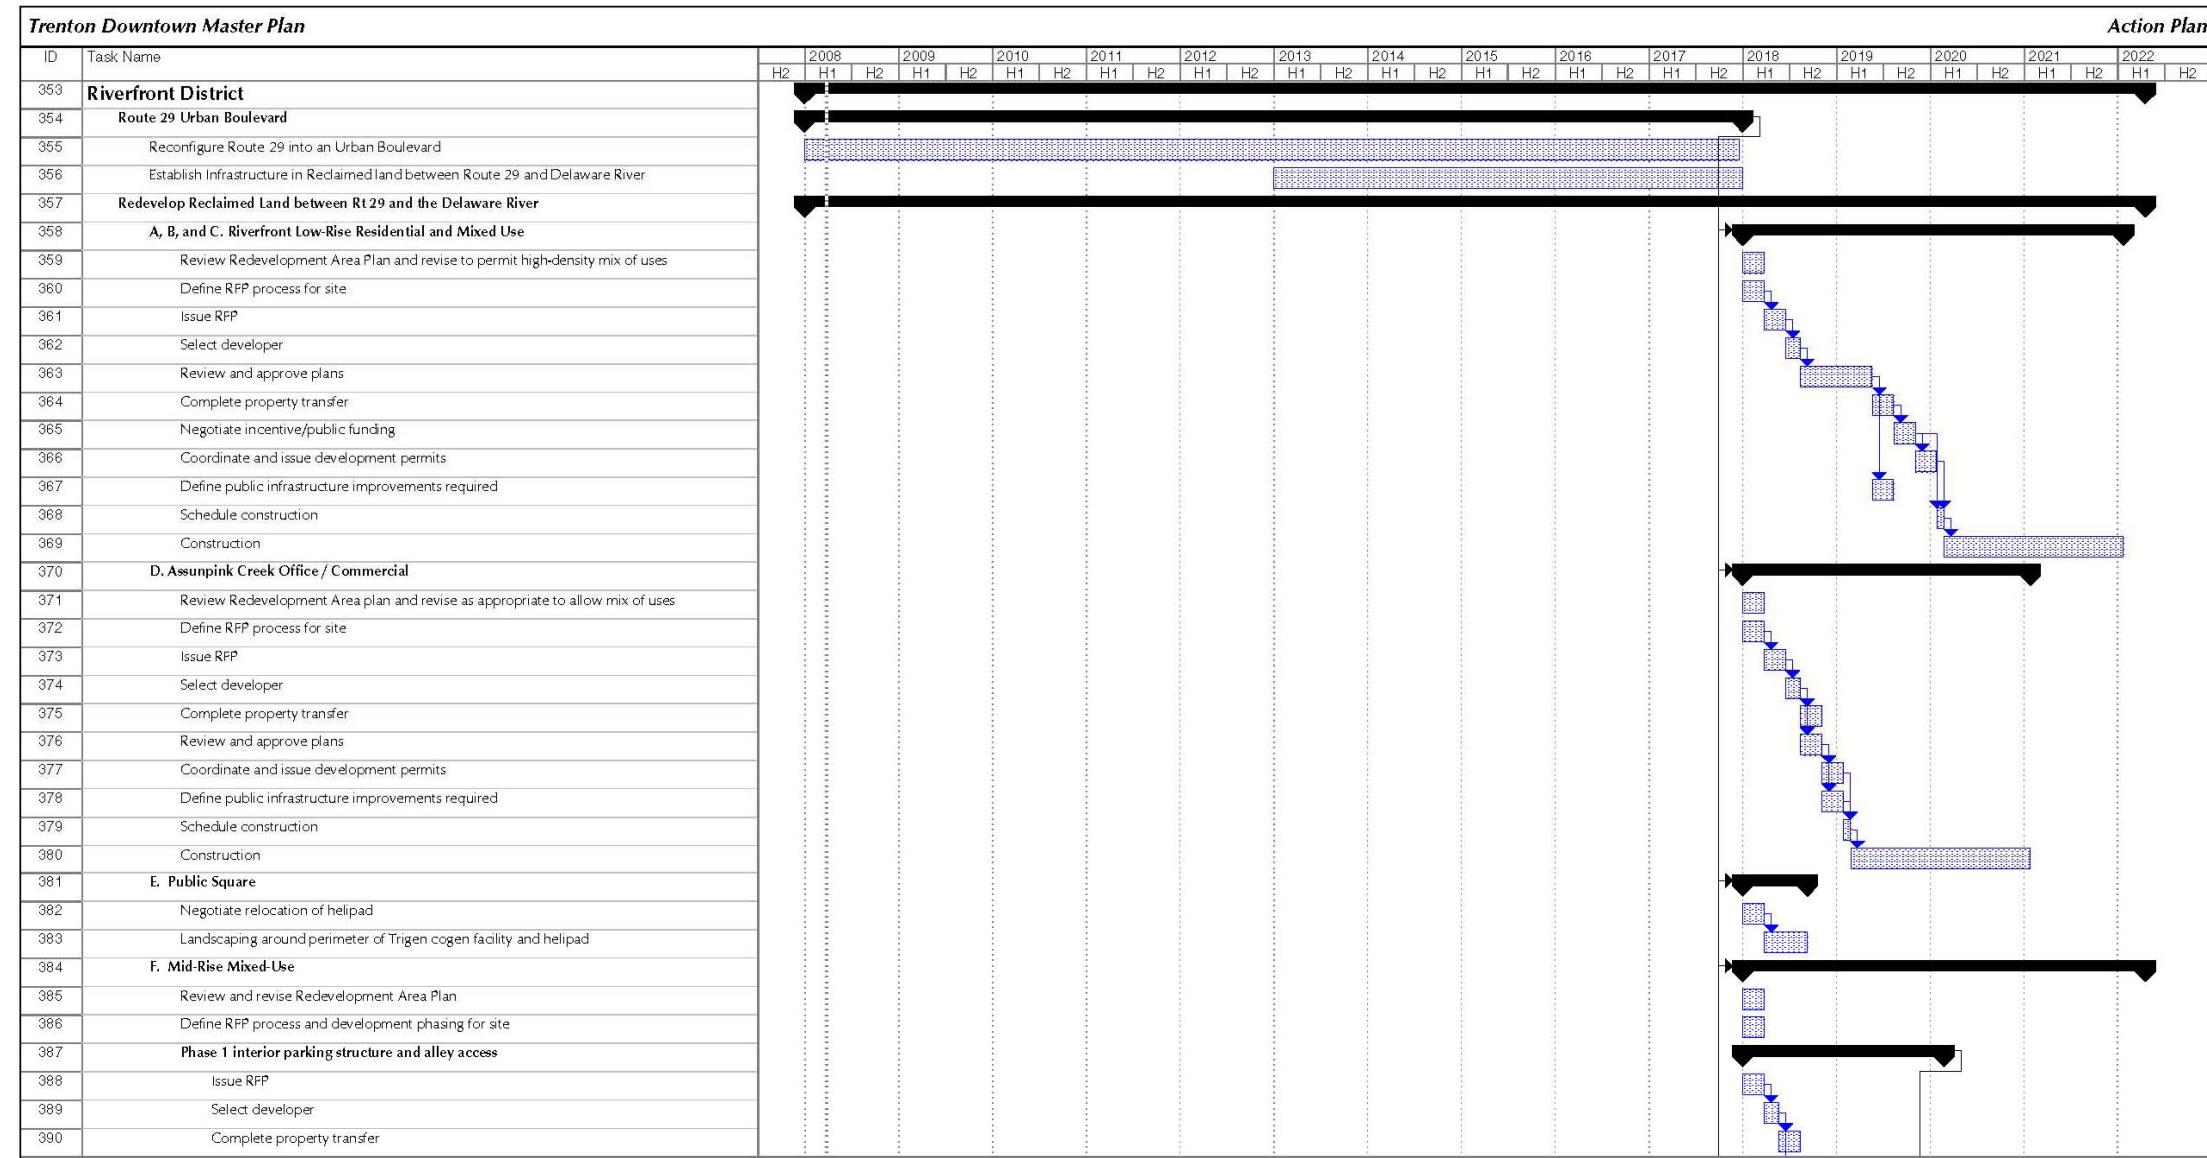

Redevelopment projects in the Riverfront District are expected to take place in the longer term, due to the transportation and infrastructure projects with long lead times and design / construction periods that are required as necessary conditions for redevelopment in the district. Lining up funding and conducting design and construction activities for the reconfiguration of Route 29 into an urban boulevard, and the subsequent definition of a new street grid on the reclaimed land and construction of a utilities infrastructure trunk system are estimated to span most of the short and medium term, triggering redevelopment projects in the 10+ year timeframe.

## Hanover Academy

The projects identified for the Hanover Academy neighborhood seek to leverage the area's architectural history. Private redevelopment is anticipated to occur in the medium term, as economic conditions in adjacent districts rise and position Hanover Academy as a likely recipient of growth. The project roster also includes a significant commercial redevelopment opportunity – potentially drawing a marquee office campus user – and two expansion projects related to Mercer County Community College.

# Funding and Redevelopment Tools

The following section provides a summary of funding and redevelopment tools that the City of Trenton may find useful in the implementation of projects in the Downtown Master Plan. This inventory represents the current landscape of resources; some programs may be phased out with changes in the Federal, State, and local political and budgetary climates, while other new programs may be initiated.

## Local Tools

### ***Redevelopment Areas***

Municipalities may designate publicly or privately owned lands that are abandoned or underperforming as Redevelopment Areas. This enables the municipality to spur redevelopment, including the condemnation of property, the use of tax exemptions, favorable bond financing, and the creation of a Revenue Allocation District (RAD). Trenton's first redevelopment area was created under the federal Urban Renewal Program in 1968. Since then, the City of Trenton has designated more than 40 Redevelopment Areas. Redevelopment areas within the Study Area for the Trenton Downtown Master Plan include:

- Canal Banks
- Capital Center
- Capital Plaza
- Central East
- Central West
- Centre City South
- Chancery Place
- Coalport
- County Courthouse
- East State Street
- Ewing-Carroll-Southard
- John Fitch Way 1
- John Fitch Way 3
- Lower Assunpink
- Mercer-Jackson 1
- Mercer-Jackson IA
- North Clinton Avenue
- Roebling Gateway
- Roebling Mansion
- State Street Square
- Trenton Station
- West State Street

Upon adoption of this Downtown Master Plan, the City will need to perform an update or amendment to existing plans to ensure that plans in the Redevelopment Area documents correspond to the visions put forth in this document. In some cases, boundaries may need to be adjusted to accommodate parcels that were not included in initial boundary designations.

Redevelopment Areas in Downtown Trenton

## **Revenue Allocation District Financing (RAD)**

RAD as a municipal finance tool was established by New Jersey Statute Title 52 Chapter 27D to address urban areas that deter private capital investment because of the deteriorating condition of the land, buildings and infrastructure within those areas, or that have not experienced private capital investment due to inadequate infrastructure or adverse economic conditions. RAD financing should be used in conjunction with the redevelopment planning process established pursuant to the State's Local Redevelopment and Housing Law defined in Title 40A Chapter 12A. A RAD must lie within or be coterminous with a Redevelopment Area and must be identified in the redevelopment plan for that redevelopment area. It allows certain revenues generated within the district above a pre-established base to be pledged to capital improvements in that district, and used for retirement of debt issued in connection with redevelopment within the RAD. Eligible revenue sources include property tax increment, as well as incremental revenue from payments in lieu of taxes (PILOT), parking taxes, and sales and use taxes retained by the municipality

## **Special Improvement Districts (SID)**

A SID is a quasi-public organization of property owners in a commercial district who tax themselves to raise money to improve their district. SIDs are formed at the request of a group of property owners in a geographically defined area to fund a variety of services that supplement the services provided by local government. SIDs are administered by a locally-based non-profit organization that is responsive to district interests and carries out the projects that the SID agrees to do. SIDs are sometimes also called Business Improvement Districts (BID) or Special Service Areas (SSA).

# **Redevelopment Commissions and Authorities**

## **Capital City Redevelopment Corporation (CCRC)**

Capital City Redevelopment Corporation is a local economic development organization chartered by the State of New Jersey, with a mission of revitalizing the Capital District. CCRC's guiding document is

the Capital City Renaissance Plan, which addresses, land use, urban design economic, social, cultural and transportation issues in the district.

## **Trenton Downtown Association (TDA)**

Trenton Downtown Association (TDA) is a non-profit organization dedicated to making Trenton, NJ's capital city a more competitive location for business owners and a more engaging center for workers, residents and visitors. TDA manages Trenton's Special Improvement District (SID) serving an area consisting of nearly 500 commercial properties loosely running east to west from the Trenton Amtrak station to Calhoun Street, and north to south from Hanover Street to the Delaware River.

## **Delaware Valley Regional Planning Commission (DVRPC)**

Serving the Greater Philadelphia, Camden, Trenton area for more than 40 years, DVRPC is the federally designated metropolitan planning organization for the region who works to foster regional cooperation in a nine-county, two-state area. Representatives from city, county and state agencies work together to address topics such as transportation, land use, environmental protection, information sharing and economic development.

## **Mercer County Improvement Authority**

The Mercer County Improvement Authority was created on October 17, 1967, by the Mercer County Board of Chosen Freeholders according to the New Jersey Statute Title 40 Chapter 37A. Under County Improvement Authorities Law counties are able to create improvement authorities and authorize them to undertake projects for the benefit of the residents.

## **New Jersey Redevelopment Authority (NJRA)**

The New Jersey Redevelopment Authority is a state redevelopment financing authority committed to revitalizing urban New Jersey. The Authority will fund predevelopment, site acquisition, site preparation, and also offers debt and equity financing, loans and guarantees, credit enhancements, bridge financing, and bond financing.

## New Jersey Commerce, Economic Growth & Tourism Commission

The New Jersey Commerce, Economic Growth & Tourism Commission provide access to the private sector to a broad range of technical, financial and other assistance that helps businesses grow and contribute to economic development. Programs of particular interest to the implementation of the Downtown Master Plan may include:

### ***Sustainable Development Loan Fund***

This is a sustainable development low interest loan fund to assist in capitalizing sustainable projects, the opportunity to assist state procurement officials in purchasing more environmentally sound products and the ability to draw upon existing state programs to provide technical assistance to support sustainability projects.

### ***Urban Enterprise Zones***

Qualified businesses can obtain sales and use tax refunds and corporate business tax credits based on local investment and job creation.

## New Jersey Economic Development Authority (EDA)

The EDA is an independent state agency whose purpose is to stimulate business development, job creation and community revitalization. EDA can arrange low-interest loans, loan guarantees, tax incentives and creative financing packages to bridge financing gaps and increase access to capital for small and mid-size businesses and nonprofit borrowers. Programs of particular interest to the implementation of the Downtown Master Plan may include:

### ***New Market Loans***

This is a low interest loan that is interest-only for at least seven years. Funds may be used for fixed assets such as building construction, renovations, real estate acquisitions and equipment purchases, and also may include working capital. Developers, businesses and nonprofit organizations are eligible. The projects must be located in an eligible census tract and in a Smart Growth planning area.

## New Jersey Department of Transportation (NJDOT)

### ***Transportation Enhancements (TE)***

This is funded through a ten percent set aside of the Surface Transportation Program category of federal funds for projects which are transportation related. TE projects are designed to foster more livable communities, preserve and protect environmental and cultural resources and to promote alternative modes of transportation. Eligible projects include: provision of facilities for pedestrians and bicyclists; provision of safety and educational activities for pedestrians and bicyclists; acquisition of scenic easements and scenic or historic sites, scenic or historic highway programs; landscaping and other scenic beautification; historic preservation, rehabilitation and operation of historic transportation buildings; structures and facilities (including historic railroad facilities and canals); and preservation of abandoned railway corridors (including the conversion and use thereof for pedestrian and bicycle trails). Funds are available for design, right of way acquisition and construction.

### ***Transit Village***

The Transit Village Grant Program is designed to assist municipalities who have been formally designated as Transit Villages by the Commissioner of Transportation and the inter-agency Transit Village Task Force. The Transit Village Initiative helps to redevelop and revitalize communities around transit facilities to make them an appealing choice for people to live, work and play, thereby reducing reliance on the automobile. The Transit Village Initiative supports Smart Growth because it encourages growth where infrastructure and public transit are already in place. Transit Village programs also reduce traffic congestion and improve air quality by increasing transit riders.

## ***Local Aid for Centers of Place***

The Centers of Place program is designed to assist municipalities who have formally participated in implementation of the New Jersey State Development and Redevelopment Plan (SDRP). The program provides an opportunity to apply for funds to support non-traditional transportation improvements that advance municipal growth management objectives.

## ***Municipal Aid Program***

In the municipal aid program, funds are appropriated by the Legislature for municipalities in each county based on a formula contained in legislation. Additionally, \$5M is allotted for those municipalities (including Trenton) that qualify for Urban Aid. Urban Aid is distributed by a formula that is computed by the Department of Community Affairs. Each spring, the Division announces the program for that fiscal year and invites municipalities to apply. Road improvement projects such as resurfacing, rehabilitation or reconstruction and signalization are funded from the \$78.75 million in municipal aid distributed by formula.

## ***New Jersey Department of Treasury***

The New Jersey Department of Treasury operates parking for state facilities.

## ***New Jersey Department of Community Affairs (NJDCA)***

### ***Neighborhood Revitalization Tax Credit Project***

This program will fund projects of which 60% of costs are related to housing or economic development and 40% for other investments supporting the revitalization of the neighborhood. Eligible applicants are 501(c)3 nonprofit community development corporations with a DCA approved NRTC Neighborhood Plan. Funding is provided to support neighborhood revitalization efforts in select NJ municipalities.

## ***Neighborhood Preservation Program***

Funds help municipalities with the revitalization of threatened but viable neighborhoods.

## ***Special Improvement District Challenge Grant***

Municipalities that do not have an existing BID/SID but do have a compact, mixed-use downtown or neighborhood commercial corridor can apply for this grant to support professional planning activities, design, development, and implementation of a Business (Special) Improvement District, the revenue from which may support an existing Downtown Management Corporation (e.g. a local Main Street program) or where none exist, a newly-created one. Municipalities that do not have an existing BID/SID but do have active business and civic organizations are eligible.

## ***New Jersey Housing and Mortgage Finance Agency (NJHMFA)***

### ***Low Income Housing Credit***

This federal program, managed at the state level, provides a dollar for dollar reduction in federal tax liability in exchange for private investment in the historically underserved affordable housing market. The program is highly competitive due to significant demand for investment funds.

### ***CHOICE***

CHOICE (Choices in Home Ownership Incentives Created for Everyone) is a demonstration construction loan and subsidy program designed to encourage the development of a mix of affordable and market single-family for-sale housing. The program provides construction financing and CHOICE subsidy, as well as end-loan financing, for the development of non-inclusionary Deed Restricted Affordable Units, Emerging-Market Units and Deed Restricted Middle Income Units. Financing, without

subsidy funding, is available for the construction and eligible end-loan financing of Market Unit developments.

### ***At Home Downtown***

The At Home Downtown program aims to revive the mixed-use vitality of New Jersey's downtowns and neighborhood commercial districts. By taking advantage of reduced-rate loans, business owners, non-profit organizations and investors can construct or acquire, refinance, and renovate buildings that offer ground floor storefront commercial opportunities with up to four units of rental housing overhead. First mortgage loans are at fixed, below market interest rates.

### ***Purchase Refinance***

Qualified first-time home buyers and urban target area buyers can receive below-market interest rate financing for the purchase and rehabilitation of a home, or the rehabilitation of a presently owned home. Seventy-five percent of the home's existing external walls and interior structural framework must remain in place as part of the rehabilitation.

### ***Refinance Rehabilitation Program***

The Refinance Rehabilitation Program assists current home owners by refinancing the existing mortgage. A portion of the refinancing must be used for rehabilitation of the house. Eligible buyers include: first time home buyers who wish to purchase dwellings in need of rehabilitation; homeowners who wish to purchase dwellings in need of rehabilitation in targeted areas as a primary residence; and homeowners who wish to rehabilitate their residence and refinance the existing indebtedness. Properties must be at least 20 years old, only used for residential purposes, and owner-occupied; there are also eligibility guidelines related to the degree of rehabilitation required.

### ***Home Plus***

This program is used to purchase a residence and to provide funds for the cost of minor home improvements (up to \$15,000), all included in one loan.

## **New Jersey Department of Environmental Protection (NJDEP)**

### ***National Recreational Trails Program***

This program provides financial assistance for developing and maintaining trails and trail facilities. Trails can be for non-motorized, multi-use and motorized purposes. This program is funded through the United States Federal Highway Administration. Projects are funded on an 80% federal share and 20% matching share basis. Funding levels vary from year to year based on New Jersey's federal apportionment. Governmental and non-profit agency landowners are eligible; the land on which trail facility is to be funded must be public land or private land with an easement for public recreational use.

### ***Green Acres***

Green Acres provides low interest (2%) loans and grants to municipal and county governments to acquire open space and develop outdoor recreation facilities. Green Acres also provides matching grants to nonprofit organizations to acquire land for public recreation and conservation purposes, and also administers the Tax Exemption Program, which provides exemption from local property taxes to eligible nonprofit organizations that own recreation or conservation lands and permit public use of their private lands.

## **New Jersey State Council on the Arts**

### ***Organizational Grants Program***

The Council offers a diverse array of grant packages to non-profit organizations that serve multiple New Jersey counties. Programs include: General Operating Support, General Program Support, Arts Education Special Initiatives, Arts Project Support, Projects Serving Artists, Arts in Communities, and Building Arts Participation.

## U.S. Department of Housing and Urban Development (HUD)

### **Community Development Block Grant Program**

The program provides annual grants on a formula basis to entitled cities and counties to develop viable urban communities by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for low- and moderate-income persons. Eligible activities include: property acquisition; relocation and demolition; rehabilitation of residential and non-residential structures; construction of public facilities and improvements; some public services; activities relating to energy conservation; and assistance to for-profit businesses to carry out economic development and job creation/retention activities. Ineligible activities include: acquisition, construction, or reconstruction of buildings for the general conduct of government; political activities; certain income payments; and construction of new housing by units of general local government. The City of Trenton's Department of Housing and Economic Development administers Trenton's CDBG allocations.

## Mercer County Cultural & Heritage Commission

The Commission administers local Arts Program Grants through a State/County Block Grant Partnership with the New Jersey State Council on the Arts and the National Endowment of the Arts. The grants are intended to promote the growth and expand the public impact of community arts organizations and community arts projects. Eligible applicants include Mercer County based non-profit organization that are 501(c) (3) or 501(c) (4) non-profit tax-exempt that have been in operation for a minimum of one (1) year. Grants are available for Special Projects Support, General Operating Support, or Technical Assistance. Applicants typically represent organizations that primarily serve Mercer County residents.

## New Jersey Historic Trust

### **Garden State Historic Trust Fund**

The Garden State Historic Trust oversees two grant programs: Historic Site Management and Capital Preservation Grants. All projects selected for funding by the New Jersey Historic Trust's Board of Trustees will require the approval of the Garden State Preservation Trust and the New Jersey Legislature before grant funds can be released.

## Delaware River Joint Toll Bridge Commission

The mission of the Delaware River Joint Toll Bridge Commission is to provide safe and efficient river crossings over 139 miles of river within its jurisdiction, which includes twenty bridges.

## Old Mill Hill Society

The Old Mill Hill Society is the Mill Hill's neighborhood association, and a 501(c)(3) charity. Members of the Society work on diverse issues to improve the neighborhood and the City of Trenton.

## Trent House Association

The Trent House Association was founded to preserve, with the City of Trenton, the 1719 William Trent House as an historic house museum to be operated expressly for the purpose of public education.

## New Jersey Department of State, New Jersey Historical Commission

### **General Operating Support Grants**

The mission of the New Jersey Historical Commission is to enrich the lives of the public by preserving the historical record and advancing interest in and awareness of New Jersey's past. It provides general assistance to historical organizations, museums, historic sites, archives, libraries, and similar organizations with collections or programming relating to the history of New Jersey.

# Participation Summary

A summary of major groups and agencies anticipated to be active participants in the redevelopment projects is presented on the following page. This cross-reference of groups to projects will be useful in scheduling time and resources to implement projects. A strong collaboration, established early on in a project's life cycle, will maximize the benefits that the various participants can bring to bear, and increase the chances of a project's successful and timely implementation.
