# Fee Proposal

CDM Smith proposes to perform professional engineering and regulatory compliance services, as requested by the Trenton Department of Water and Sewer, on an hourly rate basis. All work assignments will be performed at the written direction of City staff. CDM Smith is prepared to provide a written scope of services together with an estimated budget and schedule for specific assignments, as requested on a case-by-case basis. If there is a change in scope, CDM Smith will immediately inform the City staff of the need for additional time or budget, so that approval can be given before the additional work is performed.

CDM Smith proposes to invoice assignments on either a lump sum or cost reimbursable/not-to-exceed basis for any agreed-upon scope of services. Cost-reimbursable/not-to-exceed services would be invoiced monthly based on an hourly rate which would include benefits, overhead and profit. A table of average hourly rates for the various grade levels of our staff is presented below. Outside professionals would be invoiced with a mark-up of ten (10) percent. Mileage for necessary travel will be billed at the U.S. General Services Administration mileage reimbursement rate (presently \$0.625 per mile) or airfare, plus hotel accommodations and other associated costs. No mark-up will be invoiced for other direct costs (ODCs).
