Totals	88	37	142	201	144	\$102,486.00	\$6,714.00	\$109,200.00

Cost Assumptions:

- Rates were prepared using Princeton Hydro's 2023 Government Rates.
- Given the limited accessibility to the surface waters of the reservoir, it will be the sole responsibility of TWW to provide a safe means of getting Princeton Hydro's boat, sampling equipment, and staff into and out of the reservoir during this assessment. The plan must meet all OSHA, boating, and health and safety requirements and be presented to Princeton Hydro in advance for approval.
- The draft and final Management Plans and associated data will be provided to the client electronically in PDF format.
- Any additional tasks or requests not described in the Scope of Work above will be considered out of scope and require an additional fee.
